

BaaS for Microsoft 365

The same great product, managed for you!

Challenge

Backing up and managing SaaS environments is complex. Companies are responsible to protect their data from deletion and corruption as well as meet compliance requirements.

Experience expert-built and managed BaaS for Microsoft 365 through a Veeam® Cloud & Service Provider (VCSP) partner. Eliminate the risk of losing access and control over your Microsoft 365 data with reliable backups and restores that use Veeam-powered BaaS. Access the same great benefits and capabilities that come with protecting your data with Veeam Backup for Microsoft 365 with the added expertise of a Veeam partner in this "as-a-service" model.

Quick deployment for immediate results

Leverage the shift to OpEx payment options

Access expertise with a Veeam partner

Customize SLAs to meet business needs

Key capabilities

Protect Microsoft 365 data

Safeguard your data in Microsoft Exchange Online, SharePoint Online, OneDrive for Business and Microsoft Teams with reliable backups and restores.

Managed on your terms

With a BaaS for Microsoft 365 Veeam competency partner, you choose your service level agreements (SLAs) and level of management; this can range from hands-on to fully managed.

Flexible storage options

Store your Microsoft 365 backups on-premises or in the cloud through a VCSP partner to meet the 3-2-1 Rule.

Self-service portal

Access, monitor and manage your Microsoft 365 backups with granular restore options so you can quickly retrieve your data when you need it.

Exchange On-premises

SharePoint On-premises

According to the 2021 Data Protection as a Service report, customers look to BaaS for:

47%

to access backups anywhere, anytime

40%

want flexible payment options

37%

to leverage service provider technical experts

#1

reason for choosing a BaaS provider is data security

"One of our suppliers provides us a service to back up specific Office 365 accounts using Veeam Backup for Microsoft 365, and we have found it to be a seamless service. [This gives] us the peace of mind that if we were to make a mistake with an account, we could safely get back to the position we needed to."
